Sir:

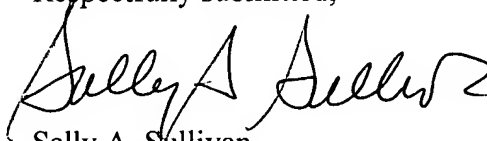

The Examiner is respectfully requested to consider the reference, copy enclosed, which may qualify as prior art. For the Examiner's convenience, the reference is listed on the attached Patent and Trademark Office form PTO-1449. It is believed that the cited reference should have been made available to the U.S. Patent Office by the International Bureau of WIPO as part of the International Search Report issued in the PCT application from which the present application is a U.S. National Stage application under 35 U.S.C. 371. It was noted by the undersigned that the Examiner cited all references from the PCT Search Report with the exception of the enclosed reference.

References known to the applicants have been listed on PTO-1449. That information is cited in a spirit of forthrightness and cooperation to enable the applicants to obtain that measure

of protection for the invention to which there is entitlement. However, no representation is made that the listed art actually qualifies as prior art under the patent statute and the mere use of PTO-1449 is not an admission that all listed references are prior art. No representation is made that applicants know of the best art.

It is believed that this submission does not require the payment of a fee because the enclosed reference should have been provided to the U.S. Patent Office in the International Search Report. If this is incorrect, please deduct the required fee from deposit account 07-1969.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Sally A. Sullivan', with a stylized flourish at the end.
